

# What is your #1 Transcription Challenge?

In order to continue providing the best e-transcription solutions available, we would like to learn what transcription issues create the most difficulty for your practice.

**Please complete our brief survey. We appreciate your response.**

*Please rank your top three transcription operation challenges, with "1" being the most critical.*

- |                                 |                                       |
|---------------------------------|---------------------------------------|
| ___ Turnaround Time (Normal)    | ___ Staff Management                  |
| ___ Turnaround Time (STAT)      | ___ Internal Workflow too Complicated |
| ___ Accuracy / Lack of Quality  | ___ Outsource Reliability             |
| ___ Lack of Security Confidence | ___ Web Interface                     |
| ___ Easy to Use System          | ___ Inhouse vs Outsource Cost         |
| ___ Physician Preferences       | ___ EMR Integration                   |
| ___ Difficult Accents           | ___ 24/7/365 Availability             |
| ___ Multiple Locations          | ___ Other (please explain)            |
